

I support satellite radio and benefit from listening to XM Satellite Radio and its traffic and weather channels. There is variety and quality that I cannot find elsewhere. In as much as I pay for these services I do not think it should be up to the NAB to decide what I am permitted to hear. As I have never attempted to voice my opinion on this level I will be very interested in the outcome. I urge the FCC to reject the NAB's petition 04-160 and support what XM is providing for me
